

# Heswall Hall

## Gayton Room

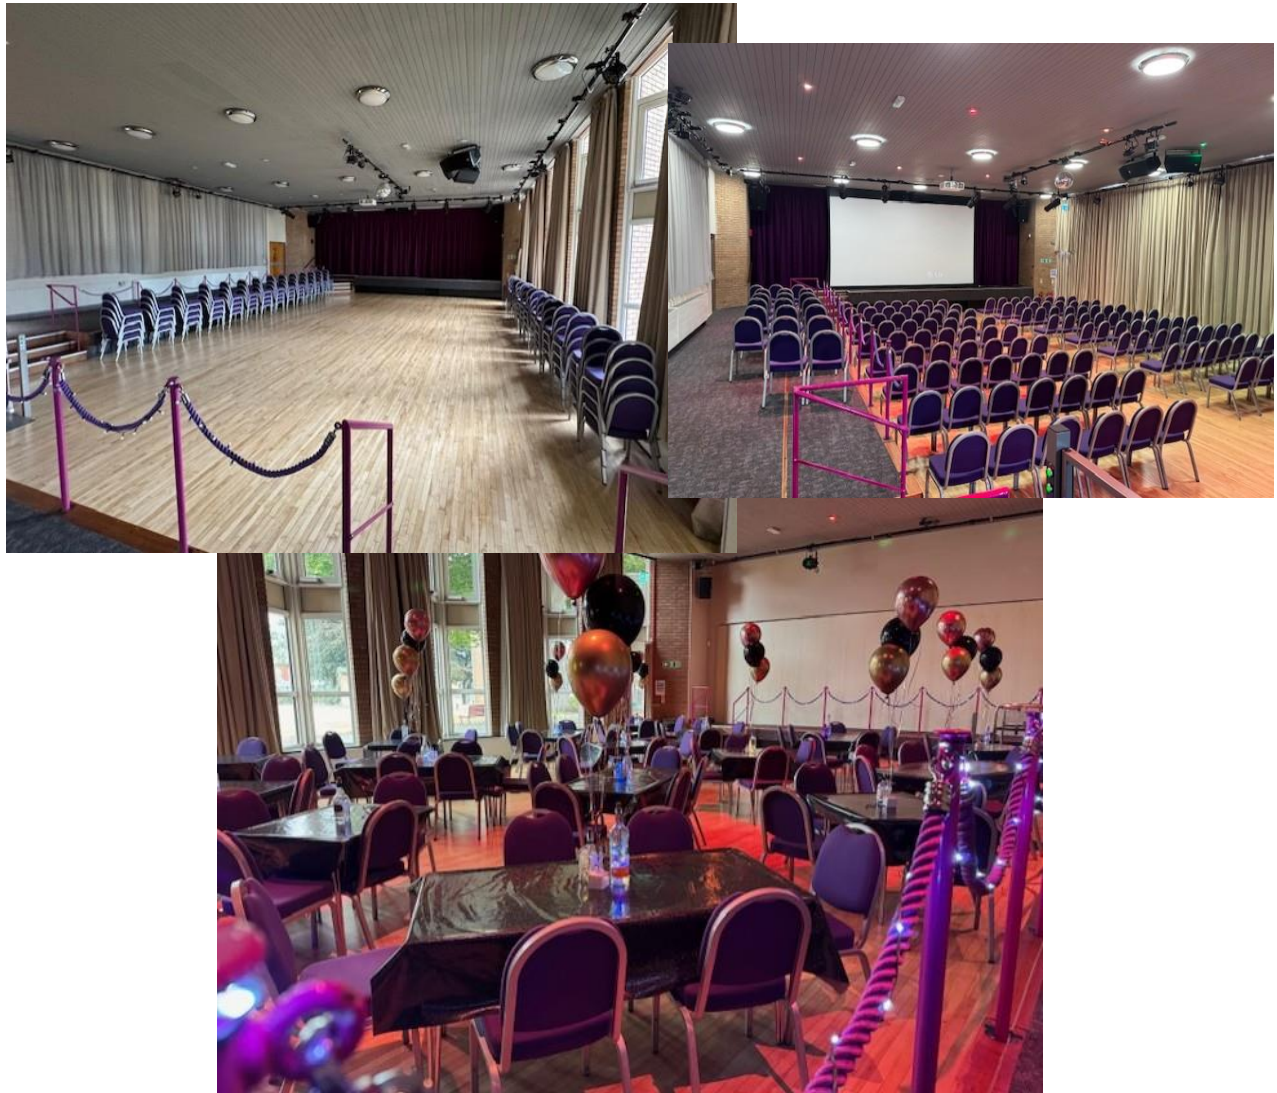

The Gayton Room is our largest room with the capacity to seat 180 people theatre style.

It's perfect for a wide variety of events including weddings, parties, theatre productions, concerts, conferences, presentations, craft fairs, exercise classes, dances and large meetings.

This room has a very large stage with excellent audio-visual equipment and full stage lighting to ensure the success of your event. A key feature of the room is its large sunken sprung floor with flexible flat and raised seating areas around the edges.

Capacity	People
Theatre Style	180
Cabaret Style	90
Cabaret Style (with space for dancing)	70
Dimensions	
Main Hall	15.8m x 9.0m
Acting Area on Stage	6.1m x 10.9m

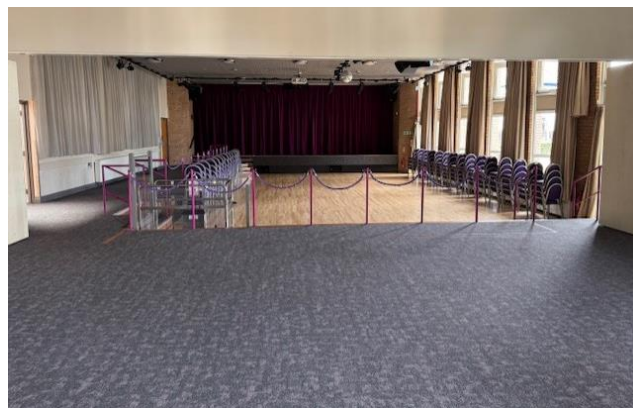

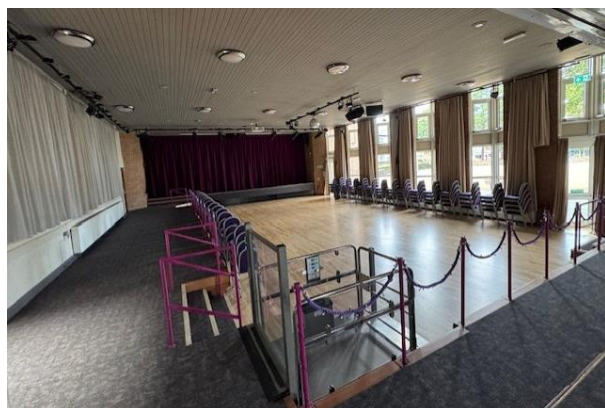

## Gayton Room

## Gayton Suite

By opening the soundproof panels between the Gayton and Hurton rooms, both rooms combine to become our main function suite. This is perfect for weddings and receptions, parties, dinner dances, formal dinners, theatre productions, concerts, conferences, trade/craft fairs and much more. It offers all the benefits of the Gayton Room but with a larger capacity.

Capacity	People
Theatre Style	250
Cabaret Style	150 - 180
Cabaret Style (with space for dancing)	130 - 150

## Audio Visual

A large drop-down projector screen is positioned near the front of the stage for use with a fixed roof projector. This can be fed from a laptop or AV presentation device that connects to the system via inputs at the side of the stage. We can provide a wireless mic headset or handheld mic, a wireless keyboard and mouse for presentations, and a DVD player is available for use with this system.

There is a fully versatile sound system with fixed loudspeakers on the proscenium arch and two smaller loudspeakers that can be moved to four other positions in the room. A range of microphones are available, and music can be played from a CD player or by plugging in your phone/tablet/MP3 player.

The Hurton Room has its own fixed roof projector, projector screen and fixed loudspeakers that can be used for presentations and music.
